NoteIT Crack + Free License Key

KeyMacro is a simple software utility that enables you to generate auto-completion commands and make your daily work a lot easier by "pressing the space bar or any other key". It is a powerful replacement for Windows' internal Quick Typing feature. Open any text document and type the first few letters of a command. When you press the desired key, it opens the command or command-line window with the first command in the file that matches the typed letters. KEYMACRO includes many useful features such as customizable hotkeys, input files, command history, and much more. It has an intuitive interface that makes it a breeze to use. KEYMACRO is free for personal use. Any other use is subject to the purchase of the full version of the program.
