Thunderbird Converter Pro is a helpful utility that can easily convert the files to more industry-compliant formats compatible with the most widely-used email client in the business environment. Comes with a simplistic design that requires no prior knowledge from your part. Runs on all operating systems As previously stated, the application is ready-to-run on all operating systems, i.e. it works on Windows, Mac, Linux and also on a mobile platform. Therefore, you should be able to catch all the relevant

---

information regarding the emails before switching to the well-established and known Outlook.

**Simple and intuitive interface** The interface of the utility is quite simple and offers an easy-to-understand functionality. It consists of a single window that is accessible in the center. You can select the directory where the messages are stored and then, press the button "Convert". The tool will start scanning the selected folder and convert the messages to a file that is compatible with the popular mail client. Supports a wide variety of file formats The program has numerous

---

capabilities when it comes to file conversions. You can convert any type of email format. In addition to the industry-standard formats, the utility supports various public formats as well. Therefore, you can convert the message to PDF, HTML, CSV, RTF and MBX. In case you need to convert the file to the widely used MBOX format, then the program supports this too. A good tool for converting MB and MBX files The ability to convert the files to MB and MBX formats is quite useful if you intend to convert your messages to the well-known Microsoft Outlook. This makes it

---

easier for business partners to access the emails and use the software.
