WhiteBird Web Browser is a lightweight web browser whose purpose is to help you navigate on the Internet in a clean and simple environment. It can be deployed on all Windows versions out there. Clean design The program sports an easy-to-decode layout that hides several configuration settings under the hood. A help manual is not comprised in the package. However, you can set up the dedicated parameters on your own because they look easy to work with. Browsing options WhiteBird Web Browser gives you the freedom to browse on the Internet in a multi-tabbed environment. Unfortunately, this particular feature did not work in our tests. Basic browsing capabilities are implemented for helping you go back or forward, stop the loading process, refresh the current webpage with a single click, input the target URL or paste it from the clipboard, close tabs and restore previously closed tab, and perform searches via Bing. Other important configuration settings worth being mentioned enable you to show a blank page, restore previous session, or show the homepage at startup, set the current homepage, accept or deny all cookies, save history and cookies, clear cookies, history, and saved passwords, show downloads in new tab, new window, dialog, or status bar, automatically look for updates, as well as configure the search engine by choosing between from several preset options (e.g. Yahoo!, AOL, Google). Tests have pointed out that WhiteBird Web Browser loads webpages quickly. It is not quite friendly with system resources so the overall performance of the computer may be hampered. It has not been updated for a long time so you may come across all sorts of issues, bugs, and errors on newer operating systems like Windows. Final ideas To sum things up, WhiteBird Web Browser provides nothing more than a simple software solution for helping you surf on the Internet, and is suitable especially for less experienced users. 1 of 4 + Download.com trial access Create a free account to get unlimited access to on our premium content and results, full downloads, multiple monitor support, as well as our email newsletter.
