Play online & download aimmaster from Mozilla Mozilla Firefox. Search. How do I get Target unactivated codes? Answer: No there aren't unactivated. Get FREE shipping and handling on orders \$49 or more.Q: How do I test if a randomly selected number is the same as a previous number? I'm trying to write code that randomly chooses a random number. I also want to check to make sure that the previous number isn't the same as the new number. If it is, I want to roll again. Here is what I have so far. It compiles correctly, but I'm pretty sure that the coding is wrong. `import java.util.Random; public class Rand{ public static void main (String args[]) { Random rand = new Random(); int num = rand.nextInt(9); if(rand.nextInt(6) == rand.nextInt(6)) { System.out.println("A number that you already selected appears again!"); } } } A: The following code should work: import java.util.Random; public class Rand { public static void main (String args[]) { Random rand = new Random(); int num = rand.nextInt(9); if (rand.nextInt(6) == rand.nextInt(6)) { System.out.println("A number that you already`
