## **Story Interpretation and Overall Design**

Gamers who love the adventuresome fantasy RPG's must enjoy the world of the Lands Between. When you choose your character, you become one of the heroes of the world. The path you take unfolds in your game, and you lead the Charge that brings the current World Order to your vision.

The Lands Between: A World where a peaceful goddess of the cold wind rules over the peace. A world where the harsh power of the warm sun that rules the world above shines brightly. A world where the shiny metal called Elden unites the lands of the two, becoming one land. A world where the land is beginning to divide in this mix of four kingdoms, so that the most powerful of its' Elden, the lands of the Silence, stand alone. But Krom mentioned the reason the lands are opening together. "I have various claims on the lands, and I would ride out into the Lands Between to have blood spilled in order to close the land. This is why we are now so far. It is now late, and it is too dangerous to travel so far now."

In the story of the Lands Between, it is said that the most powerful goddess of the world is the Goddess of the Sun. Although she is silent, she is vengeful and has a grudge against you.

You can freely decide the destiny of the Lands Between. But, if you desire, you will not know the truth of why the lands are opening, what is the correct path, nor the one you should take. Will you try to settle things peacefully, or bring war to the world of the Lands Between?

The maiden lives peacefully in the lands of the frost. She raises monsters only at night, but protects the child she gives birth to. He carries the same powers as she does

fun and fresh game with a beautifully crafted world and compelling characters.... An enjoyable adventure if you like RPGs and action games that are well-crafted.” —GameSpot “I found the adventure to be a satisfying and convincing one, but I found the game to be a bit short and I would like to explore more of it.” —GameTrailers “New Fantasy is a great game.... I would love to see more RPGs like this one.” —ChromeSmash “It's refreshing to see a game take a more focused look at role-playing games by presenting RPG elements and mechanics in a more engaging and accessible manner.” —VentureBeat “What makes New Fantasy so enticing is that it's not just an RPG where you make the characters stronger by equipping higher-level weapons and spells. The stakes are high in every encounter with a monster, and you can only get stronger by earning them.” —IGN “New Fantasy is an action-RPG set in the fantasy lands of the Elden Ring — a world of dark twists and menacing castles. You take on the role of a brave and confident hero as you explore the lands and embark on a quest to rescue a princess from a land filled with monsters.” —The GameCollector # SEGA is a
