A fantasy action RPG. It is a game that has redefined the genre. Adventure RPGs are a genre within RPGs that have the most unique feature of letting the player develop their character and use their own ideas as the main content of the game. From the beginning, we decided that we would put an emphasis on the way the world was built. We decided that we would never impose a predetermined story on players. The freedom to play how you want is a value we have always considered very important. An expansive world full of possibilities is a treasure to be discovered. We also didn't want to pander to the habits of people with an eye on stock formulas. For this reason, we had to think very carefully before we were able to decide what kind of story we would tell with this game. In the end, we decided to tell a story about the individual Elden Lords and an evil Elden Lord. An interesting story that takes place in a world full of many possibilities. Players will lead their character through a multilayered story told in fragments. A story with a narrative, leaving the conclusion open from the beginning, will be full of choices. These choices will lead to different endings. As you clear the game and find the answers to the many mysteries that lie in the Lands Between, the characters will slowly change depending on the choices that you make. ABOUT TERA™ GAME A \$10 billion fantasy action RPG with over four million players around the world. The world we have created is unique to TERA. In the game, we have combined the resources of both fantasy-based games and MMORPGs to create a world that players have never seen before. We have given freedom to players to be able to freely choose the appearance of their character and create their own path. Using our own revolutionary in-game combat system, you can freely develop your own style of play and customize your own play experience. Additionally, we created an online action RPG set in a fantasy world where you can interact with others directly and experience a variety of content. In this way, we have achieved the highest level of freedom with the setting of the game to date.
