10.22.51 Multilingual.rar.[Hospitalization rates in the Chilean  
diabetic population. A case-control study]. The frequency of  
hospital admissions in a group of diabetic patients and in a group  
of matched controls was compared. The average annual  
hospitalization rates were 0.43 and 0.38 respectively. There was  
no statistically significant difference in this figure ( $P > 0.01$ ). The  
socio-economic and cultural differences associated with different  
areas of Chile, as well as the nutritional-hygienic factors, could  
explain the observed results. More work is needed to assess the  
true magnitude of this problem.Q: Subtraction in Predicate

to get a set of object from an entity "Object". I've got a  
UICollectionView with a UICollectionViewCell. Inside the  
UICollectionViewCell I want to display a textField in which the user  
can enter a number and then display the number on screen. So  
I'm trying to get the sum of all the number in the textField's within  
the UICollectionViewCell and store this in an NSObject

called "total". In the UICollectionViewCell I have a UIButton called "add" which when pressed i'm calling an IBAction to query the total. -(IBAction)addClicked:(id)sender { NSNumber \*storedTotal = [[NSNumber alloc] initWithInt:[mytextFieldText value] intValue]; [[mytextFieldText value] insertIntoObject:@"total" withValue:storedTotal]; [self.mycollectionView reloadDataAtIndexPaths:@[[NSIndexPath indexPathForItem:0 inSection:0]]]; [[mytextFieldText value] insertIntoObject:@"total" withValue:storedTotal]; [self.mycollectionView reloadDataAtIndexPaths:@[[NSIndexPath indexPathForItem:1 inSection:0]]]; [[mytextFieldText value] insertIntoObject:@6d1f23a050
