ndows-7-All-Activation-Key-Or-A-Serial-  
Key.zip.Q: Get user status from a  
conditional statement My idea is to get the  
word to determine the status from a  
conditional statement, but I don't know how  
this would work. So I created this question  
=IF(Status=Selected,Select,Select Else  
Error) So if "Status" = "Selected", the users  
would select a word, else they get an error.

So If I get the row where the  
status=selected, how could I do this.

Thanks in advance. A: I'd use  
=IF(OR(Status=Selected),Selected,Error)
